

Spring Cleaning Tips using iSteamer®

iSteamer® has a variety of models available for Commercial & Residential applications. Vertical Clothing Steamer is **5 times faster** than conventional ironing and wrinkles (creases) become smooth instantly without scorching even the finest fabrics! Hot Vapor Steam Cleaning (iSteamer® heats up to approximately 98°C) also eliminates dustmites, bacteria, viruses (the SARS corona virus dies at 56°C) from hard surfaces and clothings.....

Some of the Applications :-

Clothings / Garments
Curtains / Draperies
Fabric Sofas
Table Skirtings
Bedsheets, Mattresses,
Pillows, etc...

Steam Kills Dust Mites

Dust mites are too small to be seen but are the most common cause of year-round allergy and asthma. Dust mites live in mattresses, pillows, carpets, furniture, bedcovers, clothes - anywhere they can feed on dead flakes of human skin. To control and prevent dust mite allergies, wash your sheets and blankets once a week in hot water or using **Hot Vapor Steam Cleaning**...

Steam at any temperature is still water, Nature's natural solvent... And when heated to a high enough temperature it becomes superheated and changes to Dry Steam Vapor. It becomes a tremendous cleaning tool. And does so without chemicals and very little moisture, which allows the surface to dry almost immediately. Removing dirt and grime and killing bacteria instantly...

No chemicals nor poisons to affect children, pets, or indoor air quality!
